

# Summary of students' Evaluation on Edu-Training on Clean Energy Technologies for School Students in Jaffna District

March 06-14, 2018

---

## 1. Lectures

### 1.1. Clearly explained

- 98 % of the respondents graded 'Good' or above. Out of which 73 % graded 'Excellent'.

### 1.2. Your learning experience

- 98 % of the respondents graded 'Good' or above. Out of which 55 % graded 'Excellent'.

### 1.3. Overall rating of this session

- 98 % of the respondents graded 'Good' or above. Out of which 71 % graded 'Excellent'.

March 06-14, 2018

## 2. Video presentation

### 2.1. Clearly explained

- 97 % of the respondents graded 'Good' or above.  
Out of which 70 % graded 'Excellent'.

### 2.2. Your learning experience

- 98 % of the respondents graded 'Good' or above.  
Out of which 62 % graded 'Excellent'.

### 2.3. Your doubts are clarified

- 97 % of the respondents graded 'Good' or above.  
Out of which 66 % graded 'Excellent'.

### 2.4. Overall rating of this session

- 98 % of the respondents graded 'Good' or above.  
Out of which 66 % graded 'Excellent'.

March 06-14, 2018

## 3. Practical session

### 3.1. Demonstrators were clear

- 98 % of the respondents graded 'Good' or above. Out of which 86 % graded 'Excellent'.

### 3.2. Your learning experience

- 98 % of the respondents graded 'Good' or above. Out of which 74 % graded 'Excellent'.

### 3.3. Your doubts are clarified

- 96 % of the respondents graded 'Good' or above. Out of which 75 % graded 'Excellent'.

### 3.4. Overall rating of this session

- 98 % of the respondents graded 'Good' or above. Out of which 79 % graded 'Excellent'.

## 4. Overall, how would you evaluate this awareness session?

- 99 % of the respondents graded 'Good' or above.  
Out of which 76 % graded 'Excellent'.

## 5. Comments given by the respondents

### How could this programme be improved?

- Include more video clips.
- Increase the duration of video and practical sessions.
- It would be great, if the programme is made more interactive.
- It would be great, if you use more tools to explain

### Any other comments or suggestions?

- I got wide knowledge in clean energy sources through this programme.
- Good workshop. However, it would be great if more time is allocated for practical session.
- You should incorporate all students. Because the knowledge about clean energy is essential for everyone.
- Practical session was very useful.
- The sessions are very useful, especially to the technology stream students.
- No time was allocated for asking questions.
- Good. Thank you for arranging this workshop.
- Please arrange a tour to show the real applications of CETs.
- Video clips were not clear at the back.
- Sound system was not adequate.
- Lectures were very clear and understandable
- It would be great, if the workshop is arranged at each school and the number of participants is less.
- Time allocated for each session is not enough.

---

- We learnt many new things
- Arrange many competitions for the students to identify young scientists in our region
- Please conduct similar workshops again
- It is good for GCE(O/L) students.
- It is good for environment
- This programme was very useful and made us to think innovative uses of solar cells.
- Demonstration of the kits working on clean energy was very attractive.
- The presentation and practical sessions were very interesting.
- We are happy with this workshop. Please conduct this workshop all over the country.
- First time, we had this hands on experiment.
- This programme helps to understand the concept of nanotechnology, solar energy and its applications
- I am really interested to know more about the solar energy and corresponding technologies
- This programme helps to understand the importance of clean energy.
- This programme helps to understand how to save and use energy that comes from nature
- Excellent experimental session
- We gained knowledge about future energy demands and the solutions to overcome such energy demands in the lecture session.
- I am really thankful to you all for informing me that nanotechnology is available in Sri Lanka.
- We did not know that nanotechnology studies are available at the University of Jaffna. Please guide us how to pursue these studies by following Mathematics and Biology streams at the GCE (A/L).
